Images of Postmodern Society Norman K K Denzin 1991-08-27 By using a series of studies of contemporary mainstream Hollywood movies - "Blue Velvet, Wall Street, Crimes and Misdemeanors, When Harry Met Sally, Sex Lies and Videotape, Do the Right Thing "- Norman Denzin explores the tension between ideas of the postmodern, and traditional ways of analyzing society. The discussion moves between two forms of text: social theory and cinematic representations of contemporary life. Denzin analyzes the ideas of society embedded in poststructuralism, postmodernism, feminism, cultural studies and Marxism through the ideas of key theorists like Baudrillard, Barthes, Habermas, Jameson, Bourdieu and Derrida. He relates these to the problematic of the postmodern self as exposed in cinema centering on the decisive performance of race, gender and class.

21st Century Criminology: A Reference Handbook J. Mitchell Miller 2009-08-06 Criminology has experienced tremendous growth over the last few decades, evident, in part, by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U.S. and internationally. Evolutionary paradigmatic shift has accompanied this surge in definitional, disciplinary and pragmatic terms. Though long identified as a leading sociological specialty area, criminology has emerged as a stand-alone discipline in its own right, one that continues to grow and is clearly here to stay. Criminology, today, remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields. Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes, effects and responses to crime. 21st Century Criminology: A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths. The individual chapters have been designed to serve as a "first-look" reference source for most criminological inquires. Both connected to the sociological origins of criminology (i.e., theory and research methods) and the justice systems' response to crime and related social problems, as well as coverage of major crime types, this two-volume set offers a comprehensive overview of the current state of criminology. From student term papers and masters theses to researchers commencing literature reviews, 21st Century Criminology is a ready source from which to quickly access authoritative knowledge on a range of key issues and topics central to contemporary criminology. This two-volume set in the SAGE 21st Century Reference Series is intended to provide undergraduate majors with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon, detail, or density as a journal article or research handbook chapter. 100 entries or "mini-chapters" highlight the most important topics, issues, questions, and debates any student obtaining a degree in this field ought to have mastered for effectiveness in the 21st century. Curricular-driven, chapters provide students with initial footholds on topics of interest in researching term papers, in preparing for GREs, in consulting to determine directions to take in pursuing a senior thesis, graduate degree, career, etc. Comprehensive in coverage, major sections include The Discipline of Criminology, Correlates of Crime, Theories of Crime & Justice, Measurement & Research, Types of Crime, and Crime & the Justice System. The contributor group is comprised of well-known figures and emerging young scholars who provide authoritative overviews coupled with insightful discussion that will quickly familiarize researchers, students, and general readers alike with fundamental and detailed information for each topic. Uniform chapter structure makes it easy for students to locate key information, with most chapters following a format of Introduction, Theory, Methods, Applications, Comparison, Future Directions, Summary, Bibliography & Suggestions for Further Reading, and Cross References. Availability in print and electronic formats provides students with convenient, easy access wherever they may be.

Topical Preaching in a Complex World Sam Chan 2021-12-07 Be Equipped to Prepare and Deliver Engaging, Biblical, and Effective Topical Sermons Sooner or later, every preacher will come upon a situation where they need to preach a topical sermon. Yet few are taught to preach topically. Even preachers who are gifted in expositing the Scriptures may struggle to deliver a topical sermon that is engaging, culturally relevant, and true to the biblical text. Worse, many pastors worry these messages undermine confidence in the Bible or its authority, leading to a human-centered rather than a God-focused sermon. But that doesn't have to be the case. In *Topical Preaching in a Complex World*, Sam Chan and Malcolm Gill answer these objections and chart a path for how preachers can deliver faithful and effective topical messages. First, they address the biblical, theological, and cultural reasons pastors should add topical sermons to their preaching repertoire. Then, they introduce a straightforward, four-fold approach for preaching a topical message and answer important questions like these: How do you approach a topic with the proper interpretative lens? How can you speak to two or more audiences with the same sermon? What should you consider theologically, culturally, and pastorally in your preparation? How do you trace the topic back to Christ? How can you better connect with your audience? Best of all, they help readers craft a message that says something people truly need (and want) to hear! Filled with wit, humor, and wisdom from decades of preaching, this book will equip preachers, pastors, ministry leaders, and students to preach relevant, biblical, and engaging topical sermons. Author Sam Chan says, "Just over a decade ago, I was asked by an organization to speak at their end-of-year dinner. They wanted me to address the topic of being a Christian single, but I had no idea how to prepare and deliver a topical talk. When the night arrived, I preached an old three-point expository sermon and merely changed the ending to include some application on singleness. At best, I got some polite comments afterwards. At worst, people's looks indicated that my biblical talk had little relevance for them. They could not have been less fooled by my disingenuous workaroud. I went home vowing never to repeat that poor performance. I felt like the unfaithful servant who had not adequately used what talents had been given to him. As a result, I have dedicated the last decade of my preaching ministry to overcoming and mastering the art of topical preaching. This book is a product of that journey."

Do You Know What's Invested in You? Pastor William Evans 2021-08-12 I struggled with my own identity early in life. Others whispered their ideas about who I was or who I would become. Does this sound familiar to you? As humans, we are taught to find a model-"a system or thing used as an example to follow or imitate"-to fit in. Finding or even following this model may seem impossible. All of us need what I call a North Star. A North Star is something or someone guiding you to who you know you are supposed to become and guiding you to what you are supposed to be doing. After giving my heart to the Lord Jesus Christ, I found my North Star. God inspired me to look beyond the more superficial sources of identity and look to the eternal. It is my belief that this book will serve as a guidepost pointing to your eternal selves. It is my hope that you will embrace this lesson as I have. If you do so, you will learn not only who you truly are but also how you fit into this world and God's master plan. You will be introduced to three of the most influential factors in life: Self Culture Purpose I believe if you embrace the lessons of this book, you will be able to answer the fundamental question "Do you know what's invested in you?" just as I did. May God enlighten you on your journey. Amen. *Being the Bad Guys* Stephen McAlpine 2021-02-01 How to live confidently for Jesus in today's world. The church used to be recognized as a force for good, but this is changing rapidly. Christians are now often seen as the bad guys, losing both respect and influence. In our post-Christian culture, how do we offer the gospel to those around us who view it as not only wrong but possibly dangerous? And how do we ensure that the secular worldview does not entice us away with its constant barrage, online and elsewhere, of messages about self-determinism? Author Stephen McAlpine offers an analysis of how our culture ended up this way and explains key points of tension between biblical Christianity and secular culture. He encourages Christians not to be ashamed of the gospel as it is more liberating, fulfilling and joyful than anything the world has to offer. He also offers strategies for coping in this world, with its opposing values, and for reaching out to others wisely with the truth.

Making the Military Moral Don Carrick 2017-09-08 This book offers a critical analysis, both theoretical and practical, of ethics education in the military. In the twenty-first century, it has become increasingly important to ensure that the armed forces of Western and other democracies fight justly and behave ethically. The 'good soldier' has to be not only professionally skilled but morally intelligent. At a time of relentless media scrutiny, the publicising of incidents of morally and legally unacceptable behaviour, such as the gross mistreatment of prisoners and the torture of suspected terrorists, can do much to undermine the credibility of those who claim to hold the moral high ground in any particular conflict. Written by an international team of academic theorists and military practitioners, this volume provides inter-disciplinary insights into the present state, and the future, of ethics education in the militaries of Western democracies. The contributors critically address the central question of whether such education is sufficient to prepare members of the armed forces to face the peculiar challenges of conflict environments that are now primarily 'wars among the people', in which the opposing combatants may have little or no regard for human life and fail to discriminate between soldiers and civilians when choosing their targets. Drawing lessons from recent examples of unethical conduct, this original book offers insightful and constructive advice, both theoretical and practical, as to how situations can be improved and on the means that could and should be employed towards this end. This book will be of much interest to students of military studies, ethics and international relations.

Archaeology at Home Hein B. Bjerck 2021-11 Archaeology at Home combines contemporary and deep time archaeology by human-thing entanglements - how things remember when left by their people, and how the integration of human-things has lines that run from today to deep time. The author attempts to balance personal experiences and scholarly archaeology. The case studies presented are all homes personally known to the author - the home of his father after his abrupt passing, the home of his uncle that was lost in a fire, and a Stone Age home he excavated many years ago. The text is aimed at academic readers as well as members of the general public who take an interest in human-thing entanglements and memories throughout time.

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State-and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years-it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Truth on Fire Adam Ramsey 2021-09-01 Knowing God truly, experiencing Him deeply. What would it look like to genuinely love God with our head AND our heart? To have a faith marked by right thinking AND right feeling? To know God deeply AND worship Him passionately? Too often, Christians act as though these things are at odds with one another. But what if God intends for us to possess a Christianity that is radically committed to biblical truth, in a way that did not diminish the life of the heart, but actually intensified it? Adam Ramsey invites us to engage both our minds and our emotions in our walk with God as we gaze at him until our hearts sing. He sums it up like this: "My hope in these following pages is to paint a biblical portrait of what God is actually like, so that we can gaze upon him together until our hearts can't help but sing. To behold him in such a way that our daily experience is transformed with a deepened awareness of who it is we pray to, who it is that is with us, and who it is that we are loved by. To let God's truth set our hearts on fire." If you yearn for God but desire a clearer biblical picture of this God whom you love, or if you have been walking with God for a while now, but your experience of him has become settled or dry, then this book is for you.
