**Torn Trousers: A True Story of  
Courage and Adventure: How A Couple  
Sacrificed Everything To Escape to  
Paradise** Andrew St Pierre White  
2015-02-20 What could possibly go  
wrong in paradise? Tired of mortgage

payments, thirty-something Andrew and Gwynn sold nearly everything they owned but their Siamese cat and escaped their humdrum nine-to-five existence for life in paradise—a tiny island in one of the remotest spots on Earth: the Okavango Delta in

Botswana. Woefully inexperienced, they took control of a luxury game lodge that catered to the likes of French aristocrats, Hollywood directors, Mafia lawyers, and the captain of the England cricket team. Not forgetting the hippos who liked to crash cocktail hour. Trouble soon followed as the reality of running a hotel on an island accessible only by boat or plane burst upon them. Andrew and Gwynn learned it's one thing for guests to wake up with gentle giraffes outside their windows, but it's quite another to keep them safe from poisonous snakes, temperamental elephants, and a hyena with a taste for plastic. All that was child's play compared to figuring out how to feed their guests when a 'quick run' to the grocery store required a plane, a bush pilot, and moderate

risk to life, limb, and property. By turns funny, touching, and suspenseful, Torn Trousers is a real modern fairytale about getting exactly what you wished for...and then having to live with it. Scroll up and buy to escape to Africa today!

The principal audience for FM 3-09 is all commanders and staffs. Commanders and staffs of Army headquarters serving as joint task force or multinational headquarters should also refer to applicable joint or multinational doctrine concerning the

range of military operations and relationships with joint or multinational forces. Trainers and educators throughout the Army will also use this manual. Commanders, staffs, and subordinates ensure their decisions and actions comply with applicable United States (U.S.), international, and, in some cases, host-nation laws and regulations. Commanders at all levels ensure their Soldiers operate in accordance with the law of war and established rules of engagement. See FM 27-10. FM 3-09 implements standardization agreements (STANAG) 2484 and 3680. FM 3-09 uses joint terms where applicable. Selected joint and Army terms and definitions appear in both the glossary and the text. Terms for which FM 3-09 is the proponent publication (the authority) are

For other definitions shown in the text, the term is italicized and the number of the proponent publication follows the definition. FM 3-09 applies to the Regular Army, the Army National Guard of the United States, and the United States Army Reserve unless otherwise stated. This publication is intended to provide guidance for brigade, division, and corps for the employment of field artillery, and for the planning, preparation, execution, and assessment of fire support. Higher echelon planners may use it to assist in establishing fire support requirements. The manual begins by describing the capabilities of the field artillery, how it is organized, and how field artillery supports the

maneuver commander through the integration of all forms of fires. Fires are the use of weapon systems to create a specific lethal or nonlethal effect on a target. This publication also provides a comprehensive discussion of fire support. This includes topics such as the role of fire support in Unified Land Operations, fire support coordination organizations and key personnel, target acquisition for fire support, and fire support attack resources. This publication also provides information on fire support in the operations process: fire support planning, preparation, execution, and assessment. This manual is a must read for combined arms leaders especially brigade and battalion commanders and staff, because it describes both field

*Mathematics For Physics: An Illustrated Handbook* Adam Marsh 2017-11-27 This unique book complements traditional textbooks by providing a visual yet rigorous survey of the mathematics used in theoretical physics beyond that typically covered in undergraduate math and physics courses. The exposition is pedagogical but compact, and the emphasis is on defining and visualizing concepts and relationships between them, as well as listing common confusions, alternative notations and jargon, and relevant facts and theorems. Special attention is given to detailed figures and geometric viewpoints.

Certain topics which are well covered in textbooks, such as historical motivations, proofs and derivations, and tools for practical calculations, are avoided. The primary physical models targeted are general relativity, spinors, and gauge theories, with notable chapters on Riemannian geometry, Clifford algebras, and fiber bundles.

**Classic Set Theory** D.C. Goldrei  
2017-09-06 Designed for undergraduate students of set theory, *Classic Set Theory* presents a modern perspective of the classic work of Georg Cantor and Richard Dedekind and their immediate successors. This includes: The definition of the real numbers in terms of rational numbers and ultimately in terms of natural numbers; Defining natural numbers in terms of sets; The potential paradoxes

in set theory; The Zermelo-Fraenkel axioms for set theory; The axiom of choice; The arithmetic of ordered sets; Cantor's two sorts of transfinite number - cardinals and ordinals - and the arithmetic of these. The book is designed for students studying on their own, without access to lecturers and other reading, along the lines of the internationally renowned courses produced by the Open University. There are thus a large number of exercises within the main body of the text designed to help students engage with the subject, many of which have full teaching solutions. In addition, there are a number of exercises without answers so students studying under the guidance of a tutor may be assessed. *Classic Set Theory* gives students sufficient grounding in a

rigorous approach to the revolutionary results of set theory as well as pleasure in being able to tackle significant problems that arise from the theory.

The Devil of Ravencliff Manor. The Phantom. Radcliff. Escorted by a prince, my obsession led me to the villain's lair, with no hope for rescue. Trapped inside his greenhouse, our once upon a time began with a flower. More accurately, with a scent that captivated me. I signed my soul over

to the man who represented my sinister nightmares. The one known to belong to the cruel shadows, who offered me my perfumer's dream. He demanded the impossible: the missing piece of his kingdom of sins. I stalked the impossible: his humanity. This is our dark tale. When beauty met ugliness. When light met darkness. When heaven met hell. A tale of obsession.

**Wrenched** Emma James 2015-08-26  
Whisper I was stolen as an infant and raised by my master, William Dupre'. For twenty years I was hidden inside a plantation home on the outskirts of Connard, Louisiana. Stupidity killed William giving me my chance for freedom. But where do I go when I have only known the walls of his home? When I have no friends and have never made contact with another person, other than my master and mistress. I am a secret. The outside

world was only known to me through the movies I was granted access to. I've only ever had contact with one man who treated me as his pet to do as he wished. I chose to run without looking back. I stole into the night on a wing and a prayer with my book, a handful of bills and my rag doll, Jenny and a head full of hope. I had to believe all of humanity was not like William and I was right. But then I had to go and let my guard down one evening giving myself over like some sex starved fool, to the tattooed man who had strolled into the bar I was working at. I was a coo yon, a stupid girl. Miss Catherine I had felt it in my bones that somethin' was goin' to be comin'. I didn't know when, but dem bones of mine never lied to me. They always gave me a warnin', a feelin' in dem

that left me to work the rest out for myself. I hadn't had such a strong feelin' seepin' into them in a long time. There was nothin' much to be done but sit here in front of my comforting fire in my cozy livin' room with my crochet until I be called upon. Sara We talk. I lie a lot because I need to keep my identity a secret. I can't let that personal information out. I lie about my name, because I gave my real name to a stranger today, and now I'm saddled with a damning letter. Tonight I will be Sara, and she will help me move forward. I'm handing her the reins. Edge I've had too much fucking time to think about my past on the ride to Louisiana. I had blocked out that part of my life, even though it helped to shape the person I am now. I'm ruthless. I

don't give second chances. I get the job done. Conscience plays no part in my world. You f\*ck me or the club over, you are done for. I'm indeed a soulless bastard through and through. I'm grateful I was taken from my father, or God only knows what would have become of me. Would I even be alive? They say blood is thicker than water. Well, that is debatable. Boxer She has no reason to trust me, especially since I'm a man. I have to keep reminding myself I'm the only other man she has met in her entire life and I'm asking her to believe my words when she has no good reason to.

Jonathan Boothe I really should get out of Dodge, but this is gonna be too good to miss. The maestro has conducted his last song. What could possibly go wrong?
