You & Your Range Rover Dave Pollard
2004 From up-market Land Rover to art
exhibit in the Louvre, from storming off-

roader to luxury executive transport, the Range Rover has done it all. The Range Rover inspired a new breed of "leisure" vehicles, seeking to emulate its mix of on-road comfort and off-road prowess. The original Series 1 Range Rover remained in production for 26 years, until it was replaced by the up-market Series 2. The Series 3, launched in 2002, moves the Range Rover emphatically into the luxury car market. This all color book - part of the "You & Your" series - should fascinate all Range Rover owners and enthusiasts. This book covers how the Range Rover came about, the development story, evolution and model changes; how Land Rover made the Range Rover a true marketing success; the story behind the Series 2 Range Rover and the move up-market; the development of the Series 3, taking the Range Rover firmly into the luxury car market; how to go off-roading safely, and where to do it legally; buying a

Range Rover, inspection advice, ownership, maintenance and modifications; specifications for all models, production figures, specialists and clubs.

American Automobile Advertising, 1930-1980 Heon Stevenson 2008-09-10

This book provides a comprehensive history of American print automobile advertising over a half-century span, beginning with the entrenchment of the "Big Three" automakers during the Depression and concluding with the fuel crises of the 1970s and early 1980s. Advances in general advertising layouts and graphics are discussed in Part One, together with the ways in which styling, mechanical improvements, and convenience features were highlighted. Part Two explores ads that were concerned less with the attributes of

the cars themselves than with shaping the way consumers would perceive and identify with them. Part Three addresses ads oriented toward the practical aspects of automobile ownership, concluding with an account of how advertising responded to the advance of imported cars after World War II. Illustrations include more than 250 automobile advertisements, the majority of which have not been seen in print since their original publication.

The Glass Castle Jeannette Walls
2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn

nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.
