Rethinking Social Epidemiology Patricia O'Campo 2011-10-05 To date, much of the empirical work in social epidemiology has demonstrated the existence of health inequalities along a number of axes of social differentiation. However, this research, in isolation, will not inform effective solutions to health inequalities. Rethinking Social Epidemiology provides an expanded vision of social epidemiology as a science of change, one that seeks to better address key questions related to both the causes of social inequalities in health (problem-focused research) as well as the implementation of interventions to alleviate conditions of marginalization and poverty (solution-focused research). This book is ideally suited for emerging and practicing social epidemiologists as well as graduate students and health professionals in related disciplines.

The Maruti Story R C Bhargava 2010-02-02 An extraordinary and rare insight into how a few determined entrepreneurs created an icon... - C. K. PrahaladThe targets were stupendous and considered unachievable by almost everyone. Slightly over two years to find a suitable partner, finalize all legal documentation, get governmental approval to these agreements as well as to the investment proposals, build a factory, develop a supplier base to meet localization regulations, create a sales and service network, and develop and launch a peoples car that would sell 100,000 a year, in a sector where Indian expertise was limited. And to do this as a public sector company, having to follow all governmental systems and procedures, and having to please both its masters in the government and Suzuki Motor Corporation. However, the Maruti project succeeded, and in ways that were unimaginable in 1983. The car revolutionized the industry and put a country on wheels. Suddenly, ordinary middle-class men and women could aspire to own a reliable, economical and modern car, and the steep sales targets were easily met. Twenty-six years later, the company, now free of government controls and facing competition from the worlds major manufacturers who have entered the Indian market, still leads the way. Not only that, cars made by Maruti can be seen in all continents. By any yardstick, it is an incredible story, involving grit, management skill and entrepreneurship of a high order. R.C. Bhargava, who was at the helm of the company, and is currently its chairman, co-writing with senior journalist and author Seetha, shows how it was done in this riveting account of a landmark achievement.

Unmasking What Matters Sandra Joseph 2018-01-23 #1 International Best Seller Living a meaningful, satisfying life is an enigma for most people today. We feel stuck, small, without the self-confidence to move in the direction of what we really want. Or, if we do

muscle through our fear in pursuit of our dreams, we exhaust ourselves working and striving and achieving and yet somehow, no matter our level of outer-world success, are left dazed and disheartened, asking ourselves, "Is this all there is?" After ten years on Broadway, Sandra Joseph—the longest-running leading lady in Broadway's longest-running show, *The Phantom of the Opera*—knows one thing for sure: the only way to have a truly fulfilling life and achieve success that satisfies is to recognize that the journey up is no substitute for the journey in. In *Unmasking What Matters*, Joseph uses lessons learned on the road to Broadway, during her decade as Christine, and through the challenges she faced after walking away from the business to show readers how to courageously bring their inner voice to the outer world, stop seeking success for achievement's sake and start creating the life they truly desire. With her hard-won wisdom, poignant personal stories, and practical, experiential exercises to guide them, readers will learn to shed their limiting masks, mindfully work through their fears, stand in their authentic power, and build a life rich with satisfaction, meaning, and significance. Warm, humble, encouraging, and inspiring, *Unmasking What Matters* can help anyone move from stuck, fearful, and playing it safe to embracing their passions, gifts, and opportunities and living life "full-out" today.

Addressing Challenging Moments in Psychotherapy Jerome S. Gans 2021-09-30 "This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

Made Realities Julia Franck 2021-05 Recognising strangeness in familiar objects, the present in the past, the construed in what is authentic -- the four masterly photographers show excerpts from our world in which the boundary between reality and imagination becomes blurred. From fleeting everyday scenes to mysterious happenings and historical events, they reveal a complex and multi-layered reality. Thomas Demand, Philip-Lorca diCorcia, Andreas Gursky and Jeff Wall use the proximity to reality and the momentary nature of photography in order to create their idiosyncratic viewpoints of reality. What is real? They play with the viewers' perceptions, irritate and invite them to an individual interpretation of what is shown. This exclusive volume presents the works of the stars of the contemporary international photography scene magnificently and in clearly narrated texts.

Whispers of Oman Maria Dekeersmaeker 2015-09-04 While writing my books "the DNA of Salalah-Dhofar" and "Treasure Chest Salalah-Dhofar" about the Sultanate of Oman, a lot of other stories came to me. Mainly stories from women... Perhaps because of the simple fact that I am a woman too. Their thoughts, achievements and dreams became the backbone for "Whispers of Oman." In the chapter "Reading as a way out," for example, Amna explains how she dealt with injustice done to her in her youth. The stories of Naifa and Dr. Aida give an insight in the way how the modernization of the country took place in 1970. Raya, who is diagnosed with cancer explains the role of her believe in coping with her disease. There is the statement of Sara, a student who explains why playing theatre is so important for her personal development. With 38 portraits and photos, "Whispers of Oman" in the Arabian Peninsula is an inspirational book, mainly about women who took the opportunities their country offered to develop their skills and peruse the things they were good at. "Whispers of Oman" is a tribute to these women their achievements.
