Why the Rites of Reconciliation Matter Gerard Moore 2008 How difficult it can be to forgive others or to accept forgiveness or to accept that someone who had offended the community has been reconciled and accepted back into it. For two millennia Christians have pondered the scope of the forgiveness Jesus taught and lived. They have celebrated practices and rites that have enabled the faithful to forgive, to be forgiven, and to accept that God brings reconciliation even when we find it almost impossible to forgive. This book traces that history to the present, offering a sense not only of how the rites of reconciliation matter to Catholics but how our struggles with forgiveness are a real contribution to reconciliation in our world.

Time and Effort James Turner 2019-01-17 After 32 years providing medical care for patients with devastating brain and spinal cord injuries, James Turner, M.D. began recording the stories he heard as a child, the stories he told his own children, and the remarkable path traveled from his early struggles in public education to acceptance at a world-famous university medical school. The result is a collection of vignettes that illustrate the choices and unavoidable circumstances which determined the route he took, and why he was ultimately successful in achieving an education. The author also has a keen eye for history, and the setting for the stories herein spans a period of remarkable social and economic upheaval in U.S. history; from family tales of the Great Depression and WWII, to the author's personal experience observing the inner workings of the Department of Defense during the escalation of the war in Vietnam, and the turmoil of political assassination and racial violence visited upon Washington, D.C. in 1968. This book should be of interest to a wide variety of readers. Although told in chronological order, each piece can be read as a stand-alone short story, allowing the reader to pick and choose portions of particular interest and the order in which read. Superficially, Time and Effort is a group of adventures, misadventures, hair-raising tales, and coming-of-age stories from the middle of the last Century. More importantly, the stories represent a first-person account of a child with atypical learning patterns, attempting to navigate an inflexible public education system and discover what abilities he has, while being told he has next to none. Both the subtle and overt ways in which schools label and stigmatize these children are demonstrated by example. Many of the stories relate to the author's military experience. For veterans, especially of the Vietnam Era, some will evoke familiar memories, while others describe a path less taken at the height of that war. Ultimately, this book is about hope, about the power of perseverance, about the remarkable kindness of strangers, and about the enormous influence each individual can have on the success and well-being of others.

Decompression Juli Zeh 2015 A psychological thriller in the tradition of Patricia Highsmith about two couples caught in a web of conflicting passions while deep-sea diving off the beautiful Canary Islands In the late 1990s, Sven Fiedler and his girlfriend, Antje, left Germany for the island of Lanzarote, rejecting what Sven considered a vulgar culture of materialism and judgment. The young couple set up a diving service catering to tourists eager to bask in the warm sunshine and explore the silent, gleaming marine paradise that makes this otherwise barren volcanic island such a remarkable retreat. Sven's approach was simple: take the mechanics of diving seriously, instruct his clients clearly, and stay out of their personal business as best he can. And life on the island goes smoothly until two German tourists--Jola von der Pahlen, a daytime soap star on the verge of cinematic success, and Theo Hast, a stalled novelist--engage Sven for a high-priced, intensive two-week diving experience. Staying in a guest house on Sven and Antje's property, the two visitors and their hosts quickly become embroiled in a tangle of jealousy and suspicion. Sven is struck by Jola's beauty, her evident wealth, and her apparently volatile relationship with the much older Theo. Theo quickly leaps to the conclusion that Sven and Jola are having an affair, but, oddly, he seems to facilitate it rather than trying to intervene. Antje, looking on, grows increasingly wary of these particular clients. As the point of view shifts from one character to the next, the reader is constantly kept guessing about who knows what, and, more important, who is telling the truth. A brutal game of delusion, temptation, and manipulation plays out, pointing toward a violent end. But a quiet one, down in the underwater world beneath the waves.

Let Us Not Forget Vurlee A. Toomey 2002-07-01 Over 70 authors and veterans share the sacrifices so many of America's veterans have made, in peacetime and in war, throughout the 20th century. You'll read about Duty, Honor, Courage - from the testing of a submarine, to the loss of the Space Shuttle Challenger, to the everyday sacrifice of men and women in uniform, whether serving during peace or war. You'll walk bloodied beaches, soar over enemy turf, pray, crawl in and out of caves, tend the wounded, shoot and be shot at, feel your heart race with fright as flak comes at you from every direction...walk the deck...hit the deck...feel the heat as fire dances across the deck, into the cockpit and into the foxhole you occupy. Your heart will constrict as the man in front of you takes the bullet meant for you. You'll know the painful bite of shrapnel, the gnawing ache hunger brings and red-hot anger as a comrade falls. But most of all, you'll experience total, unabridged fear as you watch the enemy advance through the eyes of the author, and a swelling of pride as you meet America's veterans.

Because They Hate Brigitte Gabriel 2008-01-08 Brigitte Gabriel lost her childhood to militant Islam. In 1975 she was ten years old and living in Southern Lebanon when militant Muslims from throughout the Middle East poured into her country and declared jihad against the Lebanese Christians. Lebanon was the only Christian influenced country in the Middle East, and the Lebanese Civil War was the first front in what has become the worldwide jihad of fundamentalist Islam against non-Muslim peoples. For seven years, Brigitte and her parents lived in an underground bomb shelter. They had no running water or electricity and very little food; at times they were reduced to boiling grass to survive. Because They Hate is a political wake-up call told through a very personal memoir frame. Brigitte warns that the US is threatened by fundamentalist Islamic theology in the same way Lebanon was— radical Islam will stop at nothing short of domination of all non-Muslim countries. Gabriel saw this mission start in Lebanon, and she refuses to stand silently by while it happens here. Gabriel sees in the West a lack of understanding and a blatant ignorance of the ways and thinking of the Middle East. She also points out mistakes the West has made in consistently underestimating the single-mindedness with which fundamentalist Islam has pursued its goals over the past thirty years. Fiercely articulate and passionately committed, Gabriel tells her own story as well as outlines the history, social movements, and religious divisions that have led to this critical historical conflict.

Is There Really a Human Race? Jamie Lee Curtis 2006-09-05 Is there really a human race? Is it going on now all over the place? When did it start? Who said, "Ready, Set, Go"? Does he get his own coach? Written with Jamie Lee Curtis's humor and heart and illustrated with Laura Cornell's worldly wit, Is There Really a Human Race? Is all about relishing the journey and making good choices along the way—because how we live and how we love is how we learn to make the world a better place, one small step at a time.

Stolen Treasure Lachman Mehta 2012-10-31 Stolen Treasure is a book almost 70 years in the writing! Written over the decades since 1946, this collection of observations, quotes, proverbs, witticisms and rules for living have guided the author since his youth growing up in India, through his time in the Indian Navy, and for the bulk of his life since moving to Ireland in 1960. Now in his mid-80s, the author presents a lifetime of humour and words of wisdom for a happy life in this book. A true treasure collection of one-line gems and snip-bits of life's experiences, the book presents an insight into the observations of life over the author's lifetime that so many of us experience but never document. At first, observations from an idealistic young man are presented. This is followed by wisdom learned in early adulthood and gathered as an Officer with the Indian Navy. The observations continue from a happy lifetime in Ireland with a large focus on what the author learned about life as a husband and father, as well as engineer and lecturer, to retiree. These have been collected over the years as the author has experienced them in life or overheard them in social occasions, and carefully recorded by hand. In the decades before the internet and social media, these were the original status updates that tell a story of how life and perception of what matters has changed over almost 70 years. An intriguing read for every person of all ages and all interests.

Gettysburg

Peter G. Tsouras 2011-10-19 The most intriguing 'what if' of the American Civil War presents an exciting and graphic recreation of alternate possibilities. Everyone with an interest in America's greatest battle comes up against its controversies. What if J. E. B. Stuart had arrived on the battlefield before the second day? What if Ewell had pressed hard on the heels of the Union rout on the first day? What if Pickett's charge had been stronger and better led? What if the Army of the Potomac had been commanded by a more aggressive counter attacker than Meade? Gettysburg presents some of these possibilities as though they were the reality, and explores the impact they would have on the battle and on the course of the war. The alternate events are anchored firmly in the context of the actual events, and are all within the scope of what was genuinely possible.
