**MARRIED TO THE RUSSIAN KINGPIN** Leslie North Viktor Sokolov does not know if he should love his beautiful new wife ... or kill her. Growing up with a father who held a high position in the Russian mob, Alexandra Volkin was thrilled when her parents signed a contract promising her to a Russian mob boss, even though she’d never met him. All she ever wanted was to be the powerful woman of a man all respected. When she was killed and she was promised to another, Alexandra is almost unfazed. One mob boss is as good as another. Besides, she can not deny the strong attraction she feels for Viktor. Alexandra learned at a young age that sex equals power, and she is about to exercise a heavy dose of power on her new, coldly distant husband. It’s not long, though, before she learns Viktor believes her father has murdered his own. Through a dark twist of fate, Viktor marries the woman for his murdered father—and his lovely bride’s own father is the likely murderer. As the saying goes, keep your friends close and your enemies closer. It’s not so big and sacrificing when your enemy is your sexy new wife. Viktor does not have the stomach for the brutal violence his father has exacted on his enemies, but it’s almost certain that his wife’s father killed his own father, and that leaves him with little choice. Yet, while he can ignore his pretty wife’s pleas, her insistence that her father is innocent ... ignoring how she makes him feel a whole different challenge. There isn’t going to be a happily ever after for the two of them. Unless, that is, she can prove her father’s innocence.

Nick Bilton 2017-05-02 NEW YORK TIMES BESTSELLER. THE UNBELIEVABLE TRUE STORY OF THE MAN WHO BUILT A BILLION-DOLLAR ONLINE DRUG EMPIRE FROM HIS BEDROOM—AND ALMOST GOT AWAY WITH IT In 2011, a twenty-six-year-old libertarian programmer named Ross Ulbricht launched the ultimate free market: the Silk Road, a clandestine Web site hosted on the Dark Web where anyone could trade anything—drugs, hacking software, forged passports, counterfeit cash, poisons—free of the government’s watchful eye. It wasn’t long before the media got wind of the new Web site where anyone—not just teenagers and weed dealers but terrorists and black hat hackers—could buy and sell contraband detection-free. Spurred by a public outcry, the federal government launched an epic two-year manhunt for the site’s elusive proprietor, with no leads, no witnesses, and no clear jurisdiction. All the investigators knew was that whoever was running the site called himself the Dread Pirate Roberts. The Silk Road quickly ballooned into \$1.2 billion enterprise, and Ross embraced his new role as kingpin. He enlisted a loyal crew of allies in high and low places, all as addicted to the danger and thrill of running an illegal marketplace as their customers were to the heroin they sold. Through his network he got wind of the target on his back and took drastic steps to protect himself—including ordering a hit on a former employee. As Ross made plans to disappear forever, the feds raced against the clock to catch a man they weren’t sure even existed, searching for a needle in the haystack of the global Internet. Drawing on exclusive access to key players and two billion digital words and images Ross left behind, Vanity Fair correspondent and New York Times bestselling author Nick Bilton offers a tale filled with twists and turns, lucky breaks and unbelievable close calls. It’s a story of the boy next door’s ambition gone criminal, spurred on by the clash between the new world of libertarian-leaning, anonymous, decentralized Web advocates and the old world of government control, order, and the rule of law. Filled with unforgettable characters and capped by an astonishing climax, American Kingpin might be dismissed as too outrageous for fiction. But it’s all too real.
