WebMage Kelly McCullough 2006-07-25 Magic gets an upgrade in the first WebMage novel featuring a computer savvy sorcerer... Ravirn is not your average computer geek. A child of the Fates—literally—he’s a hacker extraordinaire who can zero in on the fatal flaw in any program. Now that twenty-first-century magic has gone digital that makes him a very talented sorcerer. But a world of problems is about to be downloaded on Ravirn—who’s just trying to pass his college midterms. Great Aunt Atropos, one of the three Fates, decides that humans having free will is really overrated and plans to rid herself of the annoyance—by coding a spell into the Fate Core, the server that rules destiny. As a hacker, Ravirn is a big believer in free will, and when he not only refuses to debug her spell but actively opposes her, all hell breaks loose. Even with the help of his familiar Melchior, a sexy sorceress (who’s also a mean programmer), and the webgoblin underground, it’s going to be a close call...

The Car Show Nicolae Sfetcu 2014-04-27 This e-book details the most interesting and important characteristics of the automobiles, car maintenance, styling features, car body style, the standard classification of the cars, an history of the automobiles, introduction in the automotive industry, and the traffic code, rules and signs. An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with "motor" referring to what is now usually called the engine. It has seats for the driver and, almost without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.

Mark P. Henderson 2009-03 Recently deserted by his beloved Linda, a lonely, dissolute and strangely paranoid Sam Carpenter is writing his fifth crime novel, The Bronze Bull. And it isn't going well. He has grown attached to one of his characters, Peter Wishart, a dealer in stolen archaeological treasures and his intended murder victim. In order to type the sixth chapter and the obligatory murder, Sam drinks himself into a stupor and eventually passes out. But when he wakes, he finds himself in a very different Edinburgh from the one in which he fell asleep. When he meets a distraught archaeologist who just happens to be the partner of the fictional character murdered in his novel the night before, Sam realizes that his creative imaginings have turned into something very real. As the players in The Bronze Bull reveal more complications than he dreamed possible, Sam needs to identify the murderer if he is ever going to find out what happened to him and how he can get back to his own world in this absorbing mystery.
