UnBranding Scott Stratten 2017-10-09 "This book is about focus - it's about seeing that within these new strategies, technologies and frameworks fighting for our attention, lay the tried and true tenants of good business - because innovation is nothing but a bright and shiny new toy, unless it actually works. UnBranding is here to remind you that you can't fix rude staff, mediocre products and a poor brand reputation with a fancy new app. We are going to learn from 100 branding stories that will challenge your assumptions about business today and teach valuable, actionable lessons. It's not about going backwards, it's about moving forward with purpose, getting back to the core of good branding while continuing to innovate and improve without leaving your values behind"--

Datsun 280Z & 280ZX R.M Clarke 2011-10-01 Datsun's initial offerings were fairly conventional family cars, but with the introduction of the 240Z in 1969 the marque's image received a massive boost. It was a runaway success, outselling every European sports car model in the lucrative North American market. The 280Z arrived in 1975 followed by the 280ZX in 1978 and sales of the 280ZX had reached over 446,000 units by the time production came to an end in 1983. 44 international articles include road, track and comparison tests, a service guide plus full technical and performance data.

Consumer Reports Kevin P. Manion 2006 Consumers Union, the publisher of Consumer Reports, has been an influential and defining force in American society since 1936. The organization's mission has remained essentially unchanged: to work for a fair, just, and safe marketplace for all consumers. The Consumers Union National Testing and Research Center in Yonkers, New York, is the largest nonprofit educational and consumer product testing center in the world. In addition to its testing facility in Yonkers and a state-of-the-art auto test center in Connecticut, the organization maintains advocacy offices in San Francisco, Austin, and Washington, D.C., where staff members work on national campaigns to inform and protect consumers. In addition to its flagship publication, Consumer Reports, Consumers Union also maintains several Web sites, including www.ConsumerReports.org and www.ConsumersUnion.org, and publishes two newsletters--Consumer Reports on Health and Consumer Reports Money Adviser--as well as many special publications.

Practical Enterprise Risk Management Gregory H. Duckert 2010-10-12 The most practical and sensible way to implement ERM-while avoiding all of the classic mistakes Emphasizing an enterprise risk management approach that utilizes actual business data to estimate the probability and impact of key risks in an organization, Practical Enterprise Risk Management: A Business Process Approach boils this topic down to make it accessible to both line managers and high level executives alike. The key lessons involve basing risk estimates and prevention techniques on known quantities rather than subjective estimates, which many popular ERM methodologies consist of. Shows readers how to look at real results and actual business processes to get to the root cause of key risks Explains how to manage risks based on an understanding of the problem rather than best guess estimates Emphasizes a focus on potential outcomes from existing processes, as well as a look at actual outcomes over time Throughout, practical examples are included from various healthcare, manufacturing, and retail industries that demonstrate key concepts, implementation guidance to get started, as well as tables of risk indicators and metrics, physical structure diagrams, and graphs.

Murder by Milkshake Eve Lazarus 2019-04-02 When forty-year-old Esther Castellani died a slow and agonizing death in 1965, the official cause was at first undetermined. The day after Esther’s funeral, her husband, Rene, packed up his girlfriend, Lolly; his daughter, Jeannine; and Lolly’s son, Don, in the company car and took off for Disneyland. If not for the doggedness of the doctor who treated Esther, Rene, then a charismatic and handsome radio personality, would have been free to marry Lolly, who was the station’s pretty twentysomething receptionist. Instead, Rene was charged with capital murder for poisoning his wife with arsenic-laced milkshakes. Murder by Milkshake is the compelling story of the Castellanis, and of their daughter, Jeannine, who was eleven at the time of her mother’s murder and who clung to her father’s innocence, even committing perjury during his trial. Rigorously researched, and based on dozens of interviews with family, friends, and co-workers, Murder by Milkshake documents the sensational case that kept a city spellbound, while providing a snapshot of the Mad Men–esque social and political realities of the 1960s.

Addressing Challenging Moments in Psychotherapy Jerome S. Gans 2021-09-30 "This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, Challenging Moments in Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

Javatrekker Dean Cycon 2007-10-17 In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. In Javatrekker: Dispatches from the World of Fair Trade Coffee, a unique hybrid of Fair Trade business, adventure travel, and cultural anthropology, author Dean Cycon brings readers face-to-face with the real people who make our morning coffee ritual possible. Second only to oil in terms of its value, the coffee trade is complex with several levels of middlemen removing the 28 million growers in fifty distant countries far from you and your morning cup. And, according to Cycon, 99 percent of the people involved in the coffee economy have never been to a coffee village. They let advertising and images from the major coffee companies create their worldview. Cycon changes that in this compelling book, taking the reader on a tour of ten countries in nine chapters through his passionate eye and unique perspective. Cycon, who is himself an amalgam-equal parts entrepreneur, activist, and mischievous explorer-has traveled extensively throughout the world's tropical coffeelands, and shows readers places and people that few if any outsiders have ever seen. Along the way, readers come to realize the promise and hope offered by sustainable business principles and the products derived from cooperation, fair pricing, and profit sharing. Cycon introduces us to the Mamos of Colombia-holy men who believe they are literally holding the world together-despite the severe effects of climate change caused by us, their "younger brothers." He takes us on a trip through an ancient forest in Ethiopia where many believe that coffee was first discovered 1,500 years ago by the goatherd Kaldi and his animals. And readers learn of Mexico's infamous Death Train, which transported countless immigrants from Central America northward to the U.S. border, but took a horrifying toll in lost lives and limbs. Rich with stories of people, landscapes, and customs, Javatrekker offers a deep appreciation and understanding of the global trade and culture of coffee. In each cup of coffee we drink the major issues of the twenty-first century-globalization, immigration, women's rights, pollution, indigenous rights, and self-determination-are played out in villages and remote areas around the world. What is Fair Trade Coffee? Coffee prices paid to the farmer are based on the international commodity price for coffee (the "C" price) and the quality premium each farmer negotiates. Fair Trade provides an internationally determined minimum floor price when the C plus premium sinks below \$1.26 per pound for conventional and \$1.41 for organics (that's us!). As important as price, Fair Trade works with small farmers to create democratic cooperatives that insure fair dealing, accountability and transparency in trade transactions. In an industry where the farmer is traditionally ripped off by a host of middlemen, this is tremendously important. Cooperatives are examined by the Fairtrade Labeling Organization (FLO), or the International Fair Trade Association (IFAT), European NGOs, for democratic process and transparency. Those that pass are listed on the FLO Registry or become IFAT members. Cooperatives provide important resources and organization to small farmers in the form of technical assistance for crop and harvest improvement, efficiencies in processing and shipping, strength in negotiation and an array of needed social services, such as health care and credit. Fair Trade also requires pre-financing of up to sixty percent of the value of the contract, if the farmers ask for it. Several groups, such as Ecologic and Green Development Fund have created funds for pre-finance lending.

Class Size Peter Blatchford 2016-04-28 Much debate, research and commentary about class sizes in schools is limited because of an exclusive concern with class size and pupil academic attainment, and a neglect of classroom processes, which might help explain class size effects (or lack of them). Very little is known about the central question: how can teachers make the most of class size changes? Much of the commentary on class size effects has focused on Western and English-speaking countries but there are promising developments elsewhere, particularly the 'Small Class Teaching' initiatives in East Asia in the past decade, which have brought new knowledge and practical wisdom to the class size debate. This book seeks to move toward a clearer view of what we know and do not know about class size effects, and to identify future steps in terms of policy and research. There is a huge and exciting potential for international collaboration on knowledge concerning class size effects which can help with research-informed policy. The book aims to draw out Eastern and Western international contexts which underpin any understanding of the role of class size in school learning. The book has chapters by an international team of experts on class size effects, including Maurice Galton and John Hattie. Chapters are organised into four main sections: Socio-cultural and political contexts to the class size debate in the East and West; Research evidence on class size; Class size and classroom processes likely to be related to class size changes; Professional development for small class teaching in East Asia.

The Scouts of the Valley Joseph Alexander Altsheler 1911 A light canoe of bark, containing a single human figure, moved swiftly up one of the twin streams that form the Ohio. The water, clear and deep, coming through rocky soil, babbled gently at the edges, where it lapped the land, but in the center the full current flowed steadily and without noise. The thin shadows of early dusk were falling, casting a pallid tint over the world, a tint touched here and there with living fire from the sun, which was gone, though leaving burning embers behind. One glowing shaft, piercing straight through the heavy forest that clothed either bank, fell directly upon the figure in the boat, as a hidden light illuminates a great picture, while the rest is left in shadow. It was no common forest runner who sat in the middle of the red beam. Yet a boy, in nothing but years, he swung the great paddle with an ease and vigor that the strongest man in the West might have envied. His rifle, with the stock carved beautifully, and the long, slender blue barrel of the border, lay by his side. He could bring the paddle into the boat, grasp the rifle, and carry it to his shoulder with a single, continuous movement. His most remarkable aspect, one that the casual observer even would have noticed, was an extraordinary vitality. He created in the minds of those who saw him a feeling that he lived intensely every moment of his life. Born and-bred in the forest, he was essentially its child, a perfect physical being, trained by the utmost hardship and danger, and with every faculty, mental and physical, in complete coordination. It is only by a singular combination of time and place, and only once in millions of chances, that Nature produces such a being.
