High Court Case Summaries, Property (Keyed to Dukeminier) Editorial Staff 2015-08-04 Dukeminier's High Court Case Summaries on Property, 8th contain well-prepared briefs for each major case in Dukeminier's casebook on Property. High Court briefs are written to present the essential facts, issue, decision and rationale for each case in a clear, concise manner. While prepared briefs can never substitute for the insight gained by actually reading a case, these briefs will help readers to identify, understand, and absorb the core "take away" knowledge from each case. Moreover, these briefs are followed by a useful legal analysis, which provides extra tips and contextual background about each case, connecting the case to the broader concepts being developed throughout the casebook. This book also supplies case vocabulary, which defines new or unusual legal words found throughout the cases. Finally, to enhance the reader's recall, there is a corresponding memory graphic for each brief that portrays an entertaining visual representation of the relevant facts or law of the case.

Unbroken Laura Hillenbrand 2014-07-29 #1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE • Look for special features inside. Join the Random House Reader's Circle for author chats and more. In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Appearing in paperback for the first time—with twenty arresting new photos and an extensive Q&A with the author—Unbroken is an unforgettable testament to the resilience of the human mind, body, and spirit, brought vividly to life by Seabiscuit author Laura Hillenbrand. God Conversations Tania Harris 2017 How do I know it's God? is one of the most commonly asked questions of new and mature Christians alike, and the aim of God Conversations is to both equip and inspire the reader and show them that hearing the voice of the Spirit is accessible to everyone who chooses to follow Jesus. Most Christians know that God speaks, yet struggle with how to recognise his voice in their everyday lives. What does God's voice sound like? How do we know if what we're hearing is from God? Stories of God talking to his people abound throughout the Bible, but we usually only get the highlights. We read; "And God said to Joseph; 'Go to Egypt'," and then; "Mary and Joseph left for Egypt." We don't get a blow-by-blow description of how God spoke. We don't receive a detailed explanation of how they knew it was God, and we don't get to see what was going on inside their heads as they acted on what they'd heard. In God Conversations, international speaker and pastor Tania Harris shares insights from her own journey about hearing God's voice. You'll get to eavesdrop on some contemporary conversations with God in the light of his communication with the ancient characters of the Bible. Part memoir, part teaching, this unique and creative collection of stories will help you to recognise God's voice when he speaks and how to respond when you do.

Ferrari Fever* Marc Sonnery 2014-01-31 *Ferrari Fever* is a fascinating and nostalgic look back at the classic car collecting scene in the 60's and 70's, an era when some of the rarest and most interesting Italian automobiles could still be found hidden or languishing in barns, junkyards or by the side of the road...almost lost in time. Paul Schouwenburg's story begins in wartime occupied Amsterdam, a poignant backdrop to the hardships of the years to follow, when the appearance of any exotic Italian thoroughbred was a rare sight indeed. Fuelled by a fascination for all things mechanical, adventures on a Rudge bicycle and early experiences in his parents succession of Rovers, Paul gains a burning passion for finding, restoring, and ultimately racing Italian cars. But these were not just any Italian cars - from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GT0, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB Competition/61 and 275GTB/C/LM, usually by word of mouth or tenuous rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn't exciting enough, he would then race them, often winning, before moving on to the next irresistible project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul's passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn't even give away his 250 GT0 at the time!

The Cattle Guard James F. Hoy 2021-10-08 With this study the cattle guard joins the sod house, the windmill, and barbed wire as a symbol of range country on the American Great Plains. A U.S. folk innovation now in use throughout the world, the cattle guard functions as both a gate and a fence: it keeps livestock from crossing, but allows automobiles and people to cross freely. The author blends traditional history and folklore to trace the origins of the cattle guard and to describe how, in true folk fashion, the device in its simplest form—wooden poles or logs spaced in parallel fashion over a pit in the roadway—was reinvented and adapted throughout livestock country. Hoy traces the origins of the cattle guard to flat stone stiles unique to Cornwall, England, then through the railroad cattle guard, in use in this country as early as 1836, and finally to the Great Plains where, probably in 1905, the first ones appeared on roads. He describes regional variations in cattle guards and details unusual types. He provides information on cattle-guard makers, who range from local blacksmiths and welders to farmers and ranchers to large manufacturers. In addition to documenting the economic and cultural significance of the cattle guard, this volume reveals much about early twentieth-century farm and ranch life. It will be of interest not only to folklorists and historians of agriculture and Western America, but also to many Plains-area farmers, ranchers, and oilmen.

Fictionalising Trauma Sirkka Knuutila 2011 With Marguerite Duras being the most disputed French artist after World War II, symbolising trauma represents the most problematic crux of contemporary trauma research. This book brings together these troublesome issues by way of integrating Duras's aesthetics and the challenge of working through major historical trauma. Starting from the concept of an embodied mind as developed in current social neuroscience, the study illuminates the stylistic devices of the famous *India Cycle* that arose from Duras's relentless struggle with the trauma of French colonialism. It reveals how converting trauma into fiction can become a powerful emotional strategy for surviving traumatic events, which may provoke necessary changes in our cultural memory through collective sharing.
