The Mammoth Book of Killers at Large Nigel Cawthorne 2011-09-01 Reason to be afraid - over 50 unsolved cases of serial murder Fact: murderers and serial killers do not always get caught. Behind every headline of a newsworthy conviction lie other cases of vicious murderers who got away, and who remain somewhere among us. Here in one giant volume are more than 50 of the most serious serial killings and other murder cases that continue to remain unsolved. The cases covered in this alarming book include: " Argentina's crazed highway killer, responsible for mutilating and killing at least five people since 1997, and dumping their bodies along remote highways " The Green River Killer, believed to be a middle-aged white man, who has claimed at least 49 lives to date in the Seattle-Tacoma area " South Africa's 'Phoenix Strangler', suspected of killing 20 women in the province of KwaZulu Natal. " The Twin Cities Killer - either one or several people responsible for a series of over 30 murders on the streets of Minneapolis and St. Paul, where the victims were mostly prostitutes " Costa Rica's elusive 'El Psicópata' (The Psychopath), thought to have murdered at least 19 people in this small quiet Central American country " 'The Monster of Florence', responsible for a series of 15 sexual slayings just outside Florence In each case it is not just the crimes that are horrifying and fascinating, but the response of local police and authorities to the lack of a conviction. Local authorities may fear to admit the continued existence of a serial killer at large; whilst police bodies face the temptation to 'tidy up' loose unsolved murders under the aegis of other admitted crimes.

Mobile Marketing Management Hongbing Hua 2019-03-18 With the development of mobile internet technology, people's lifestyle and consumer behavior are changing rapidly. Nowadays, the products on the market are updating more and more frequently, and the traditional marketing theory and brand theory fail to get with the mobile internet. So, what's the innovative marketing to take in the new era? Since 2012, China has entered into the mobile era, and became a major country of mobile internet application. The book summarizes the experience of the author accumulated from many trials and errors in management and marketing innovation, so as to form the pattern of management and marketing for the next 30 years. Mobile Marketing Management lays the foundation for the new era with four pillars: service, substance, superuser, space, known as 4S theory for short. In view of the concept of customer-first, it is all about service, and products become

productized service concepts. In view of the failure of mass communication, the competition among all services becomes the competition of substance differentiation. Regarding the popularity of self-organization, it becomes a trend to cooperate with people rather than the company to develop the market. In view of the principle of fuzzy market boundary, the enterprises shall optimize their living space and evolve their development space. This book contains numerous case studies along with analysis and creates the discipline of mobile marketing management, providing innovative theories, methods and tools for the marketing of enterprises. Through this book, readers can master the marketing methods of the mobile internet era. They can apply the marketing theory in this book to guide the marketing practice, thus improving marketing efficiency and reducing marketing costs.

**Door to Door Quilts** Ann Hazelwood 2021-04 The second novel in Ann Hazelwood's Door County Quilts Series. Claire Stewart loves her little hometown of Fish Creek and has settled happily in Door County, Wisconsin. Her career as a quilt artist and painter is blooming, but she is disappointed with the prestigious quilt club she was privileged to join. They could be doing so much more to bring quilts to the forefront in Door County. One of Claire's grand ideas requires her to go before the Town Board to get an event permit. She and her best friend Cher team up to try to convince the board to do something they have never done before. Meanwhile, the man with the red scarf begins to play a stronger role in Claire's life as harassment continues from Austin, her former lover. Artist Claire Stewart is creating a life we cannot wait to read more about. Available April 2021 - Preorder Now

**Giúp Me (Helping Mom)** National Resource Center for Asian Languages (NRCAL) 2021 Television Criticism Victoria O'Donnell 2016-01-22 Television Criticism, Third Edition by Victoria O'Donnell provides a foundational approach to the nature of television criticism. Rhetorical studies, cultural studies, representation, narrative theories, and postmodernism are introduced for greater understanding and appreciation of the critical perspectives on television with in-depth methods of criticism. Illustrated with contemporary examples, this updated Third Edition includes a new, extensive sample critical analysis of The Big Bang Theory and reflects recent changes in the ways television is viewed across multiple devices and the impact of the Internet on television.

*Decompression* Juli Zeh 2015 A psychological thriller in the tradition of Patricia

Highsmith about two couples caught in a web of conflicting passions while deep-sea diving off the beautiful Canary Islands In the late 1990s, Sven Fiedler and his girlfriend, Antje, left Germany for the island of Lanzarote, rejecting what Sven considered a vulgar culture of materialism and judgment. The young couple set up a diving service catering to tourists eager to bask in the warm sunshine and explore the silent, gleaming marine paradise that makes this otherwise barren volcanic island such a remarkable retreat. Sven's approach was simple: take the mechanics of diving seriously, instruct his clients clearly, and stay out of their personal business as best he can. And life on the island goes smoothly until two German tourists--Jola von der Pahlen, a daytime soap star on the verge of cinematic success, and Theo Hast, a stalled novelist--engage Sven for a high-priced, intensive two-week diving experience. Staying in a guest house on Sven and Antje's property, the two visitors and their hosts quickly become embroiled in a tangle of jealousy and suspicion. Sven is struck by Jola's beauty, her evident wealth, and her apparently volatile relationship with the much older Theo. Theo quickly leaps to the conclusion that Sven and Jola are having an affair, but, oddly, he seems to facilitate it rather than trying to intervene. Antje, looking on, grows increasingly wary of these particular clients. As the point of view shifts from one character to the next, the reader is constantly kept guessing about who knows what, and, more important, who is telling the truth. A brutal game of delusion, temptation, and manipulation plays out, pointing toward a violent end. But a quiet one, down in the underwater world beneath the waves.

ENDLESS DREAMS (The BulletBall Guy) MARC GRIFFIN 2020-11-02 ENDLESS DREAMS is a true story about the BulletBall Guy 'never ever giving up' even in the face of complete failure. His faith in God and the love of his wife has led him to a place of immeasurable happiness. Join him on a journey of survival in the wilderness of life...

**Shakespeare, Objects and Phenomenology** Susan Sachon 2019-12-24 This book explores ways in which Shakespeare's writing strategies shape our embodied perception of objects – both real and imaginary – in four of his plays. Taking the reader on a series of perceptual journeys, it engages in an exciting dialogue between the disciplines of phenomenology, cognitive studies, historicist research and modern acting techniques, in order to probe our sentient and intuitive responses to Shakespeare's language. What happens when we encounter objects on page and stage; and how we can imagine that impact in performance? What influences might have shaped the language that created them; and what do they reveal about our response to what we see and hear? By placing objects under the phenomenological lens, and scrutinising them as vital conduits between lived experience and language, this book illuminates Shakespeare's writing as a rich source for investigation into the way we think, feel and communicate as embodied beings.

McQueen's Machines Matt Stone 2010-11-06 No other Hollywood star has been so closely linked with cars and bikes, from the 1968 Ford Mustang GT Fastback he drove in Bullitt (in the greatest car chase of all time) to the Triumph motorcycle of The Great Escape. McQueen's Machines gives readers a close-up look at the cars and motorcycles McQueen drove in movies, those he owned, and others he raced. With a foreword by Steve's son, Chad McQueen, and a wealth of details about of the star's racing career, stunt work, and car and motorcycle collecting, McQueen's Machines draws a fascinating picture of one outsized man's driving passion. Now in paperback.

Vehicle Stability Dean Karnopp 2004-03-11 This reference offers a systematic approach to the dynamics and stability of vehicles such as cars, bicycles, trailers, motorcycles, and trains and shows how mathematical models of varying degrees of complexity can be used to suggest design guidelines for assurance of vehicle stability. Based on more than 30 years of teaching experience from a reno

Can You Solve My Problems? Alex Bellos 2017-07-06 Are you smarter than a Singaporean ten-year-old? Can you beat Sherlock Holmes? If you think the answer is yes - I challenge you to solve my problems. Here are 125 of the world's best brainteasers from the last two millennia, taking us from ancient China to medieval Europe, Victorian England to modern-day Japan, with stories of espionage, mathematical breakthroughs and puzzling rivalries along the way. Pit your wits against logic puzzles and kinship riddles, pangrams and river-crossing conundrums. Some solutions rely on a touch of cunning, others call for creativity, others need mercilessly logical thought. Some can only be solved by 2 per cent of the population. All are guaranteed to sharpen your mind. Let's get puzzling!

Seymour/Carraher's Polymer Chemistry Charles E. Carraher Jr. 2003-04-30 This revolutionary and best-selling resource contains more than 200 pages of additional information and expanded discussions on zeolites, bitumen, conducting polymers, polymerization reactors, dendrites, self-assembling nanomaterials, atomic force microscopy, and polymer processing. This exceptional text offers extensive listings of laboratory exercises and demonstrations, web resources, and new applications for in-depth analysis of synthetic, natural, organometallic, and inorganic polymers. Special sections discuss human genome and protonics, recycling codes and solid waste, optical fibers, self-assembly, combinatorial chemistry, and smart and conductive materials.

*Ferrari Fever* Marc Sonnery 2014-01-31 Ferrari Fever is a fascinating and nostalgic look back at the classic car collecting scene in the 60's and 70's, an era when some of the rarest and most interesting Italian automobiles could still be found hidden or languishing in barns, junkyards or by the side of the road...almost lost in time. Paul Schouwenburg's story begins in wartime occupied Amsterdam, a poignant backdrop to the hardships of the years to follow, when the appearance of any exotic Italian thoroughbred was a rare sight indeed. Fuelled by a fascination for all things mechanical, adventures on a Rudge bicycle and early experiences in his parents' succession of Rovers, Paul gains a burning passion for finding, restoring, and ultimately racing Italian cars. But these were not just any Italian cars - from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GT0, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB Competition/61 and 275GTB/C/LM, usually by word of mouth or tenuous rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn't exciting enough, he would then race them, often winning, before moving on to the next irresistible project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul's passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn't even give away his 250 GT0 at the time!

**Automotive Engine Alternatives** Robert L. Evans 2013-06-29 This book contains the proceedings of the International Symposium on Alternative and Advanced Automotive Engines, held in Vancouver, B.C., on August 11 and 12, 1986. The symposium was sponsored by EXPO 86 and The University of British Columbia, and was part of the specialized periods program of EXPO 86, the 1986 world's fair held in Vancouver. Some 80 attendees were drawn from 11 countries, representing the academic, automotive and large engine communities. The purpose of the symposium was to provide a critical review of the major alternatives to the internal combustion engine. The scope of the symposium was limited to consideration of combustion engines, so that electric power, for example, was not considered. This was not a reflection on the possible contribution which electric propulsion may make in the future, but rather an attempt to focus the proceedings more sharply than if all possible propulsion systems had been considered. In this way all of the contributors were able to participate in the sometimes lively discussion sessions following the presentation of each paper.

Glossary of Automotive Terms Society of Automotive Engineers 1988 This comprehensive glossary brings together in one handy volume over 10,500 current automotive terms. From "A-pillar" to "Zones of Reach" the Glossary provides you with over 500 pages of alphabetically listed definitions collected from the SAE Handbook. For further research each definition references the SAE standard or specification from which it was taken. The new Glossary of Automotive Terms is an essential reference for anyone in the industry.

THERMEC 2018 R. Shabadi 2018-12-26 This book presents the proceedings of the THERMEC 2018: 10th International Conference on Processing and Manufacturing of Advanced Materials, which took place between July 09 and July 13, 2018 in Paris, France, under the co-sponsorship of Universite de Lille, MINES ParisTech, PSL and Universite de Tours, France. The presented book will be useful for many researchers and engineers/technologists working in different aspects of processing and fabrication of materials, structure/property evaluation and applications of both ferrous and nonferrous materials including biomaterials, smart materials as well as the advanced measurement techniques in the materials science.
