Second Suns David Oliver Relin 2013-06-18 From the co-author of *Three Cups of Tea* comes the inspiring story of two very different doctors—one from the United States, the other from Nepal—united in a common mission: to rid the world of preventable blindness. In this transporting book, David Oliver Relin shines a light on the work of Geoffrey Tabin and Sanduk Ruit, gifted ophthalmologists who have dedicated their lives to restoring sight to some of the world's most isolated, impoverished people through the Himalayan Cataract Project, an organization they founded in 1995. Tabin was the high-achieving bad boy of Harvard Medical School, an accomplished mountain climber and adrenaline junkie as brilliant as he was unconventional. Ruit grew up in a remote Nepalese village, where he became intimately acquainted with the human costs of inadequate access to health care. Together they found their life's calling: tending to the afflicted people of the Himalayas, a vast mountainous region with an alarmingly high incidence of cataract blindness. *Second Suns* takes us from improvised plywood operating tables in villages without electricity or plumbing to state-of-the-art surgical centers at major American universities where these two driven men are restoring sight—and hope—to patients from around the world. With their revolutionary, inexpensive style of surgery, Tabin and Ruit have been able to cure tens of thousands—all for about twenty dollars per operation. David Oliver Relin brings the doctors' work to vivid life through poignant portraits of patients helped by the surgery, from old men who cannot walk treacherous mountain trails unaided to cataract-stricken children who have not seen their mothers' faces for years. With the dexterity of a master storyteller, Relin shows the profound emotional and practical impact that these operations have had on patients' lives. *Second Suns* is the moving, unforgettable story of how two men with a shared dream are changing the world, one pair of eyes at a time. Praise for *Second Suns* "As miracles go, it's hard to beat making the blind see. Yet that's exactly what the eye surgeon Dr. Geoffrey Tabin can do. He services poor people in the developing world who have developed cataracts—a clouding of the lens of the eye that is the world's leading cause of blindness. . . . *Second Suns* is a hopeful work, a profile of two doctors

who have dedicated their lives to bringing light to those in darkness."—Time "A compelling and inspiring book . . . *Second Suns* portrays heroic health care delivered under harrowing conditions: Ruit and his teams carry their equipment on multi-day treks up steep mountain trails, sometimes hiking at night with flashlights or head lamps, to reach settlements where they typically spend several days operating on hundreds of villagers in makeshift surgical theaters."—The Washington Post "Second Suns should be required reading for anybody with an interest in humanitarian philanthropy—or, for that matter, a desire to feel a little better about the world."—Outside "A detailed, heartfelt account of the work of [two] dedicated pioneers."—Kirkus Reviews From the Hardcover edition. *Cars & Parts* 1987

Trust me, I know. Because I'm looking at one right now. All I can think is: Oh, hell. My grandmother is going to kill me. This might just send her to an early grave, so there's only one option—pretending the father is my new husband. If only he'd agree to fake it. Kai Connors was supposed to be nothing more than a one-night stand. A long, dirty, one-night stand fueled by one too many tequila shots, where the only promise was to never speak of it again. But if my unfairly sexy next-door neighbor gets his way, this fake marriage could turn out to be very, very real... *The Girl Next Door* paperback includes the prequel short story, *The One-Night Stand Next Door*.

High Risk Ben Timberlake 2021-12-01 This is a dark, raw and uncompromising tale of the human condition in extremis, drawing on the many lives of Ben Timberlake: as an archaeologist, Special Forces soldier, combat medic and drug addict. Starting with Ben's first near-death experience--in a Nazi-themed bar in wartime Yugoslavia--*High Risk* is a whirlwind tour of everything from service in the SAS, combat in Iraq, and encounters with a gambling-obsessed 9/11 hijacker, to veterans blissed out on MDMA, hook-ups in the world of extreme sex, and battling a heroin habit on a remote Scottish island. Ben pursued the rush, and the chase often took him over the edge. Instead of asking why, he asked, why not? Blending confessional narrative, classic reportage and acerbic humour, this memoir takes a gonzo look at terrorists, junkies, soldiers and strippers, through the tale of one extraordinary life.

Summer of Deliverance Christopher Dickey 2010-10-12 *Summer of Deliverance* is a powerful and moving memoir of anger, love, and reconciliation between a son and his father. Hailed as a literary genius of his generation, James Dickey created his art and lived his life with a ferocious passion. He was a heavy drinker, a destructive husband and father, a poet of grace and sensitivity, and, after the publication and subsequent film of his novel, *Deliverance*, a wildly popular literary star. Drawing on letters, notebooks, diaries, and his explicit conversations with his father, Christopher Dickey has crafted a superb memoir of the corrosive effects of fame, a moving remembrance of a crisis that united a family, and an inspiring celebration of love between father and son.

Uranium Tom Zoellner 2009-03-05 The fascinating story of the most powerful source of energy the earth can yield Uranium is a common element in the earth's crust and the only naturally occurring mineral with the power to end all life on the planet. After World War II, it reshaped the global order-whoever could master uranium could master the world. Marie Curie gave us hope that uranium would be a miracle panacea, but the Manhattan Project gave us reason to believe that civilization would end with apocalypse. Slave labor camps in Africa and Eastern Europe were built around mine shafts and America would knowingly send more than six hundred uranium miners to their graves in the name of national security. Fortunes have been made from this yellow dirt; massive energy grids have been run from it. Fear of it panicked the American people into supporting a questionable war with Iraq and its specter threatens to create another conflict in Iran. Now, some are hoping it can help avoid a global warming catastrophe. In *Uranium*, Tom Zoellner takes readers around the globe in this intriguing look at the mineral that can sustain life or destroy it.

Decompression Juli Zeh 2015 A psychological thriller in the tradition of Patricia Highsmith about two couples caught in a web of conflicting passions while deep-sea diving off the beautiful Canary Islands In the late 1990s, Sven Fiedler and his girlfriend, Antje, left Germany for the island of Lanzarote, rejecting what Sven considered a vulgar culture of materialism and judgment. The young couple set up a diving service catering to tourists eager to bask in the warm sunshine and explore the silent, gleaming marine paradise that makes this otherwise barren volcanic island such a remarkable retreat. Sven's approach was simple: take the mechanics of diving seriously, instruct his clients clearly, and stay out of their personal business as best he can. And life on the island goes smoothly until two German tourists--Jola von der Pahlen, a daytime soap star on the verge of cinematic success, and Theo Hast, a stalled novelist--engage Sven for a high-priced, intensive two-week diving experience. Staying in a guest house on Sven and Antje's property, the two visitors and their hosts

quickly become embroiled in a tangle of jealousy and suspicion. Sven is struck by Jola's beauty, her evident wealth, and her apparently volatile relationship with the much older Theo. Theo quickly leaps to the conclusion that Sven and Jola are having an affair, but, oddly, he seems to facilitate it rather than trying to intervene. Antje, looking on, grows increasingly wary of these particular clients. As the point of view shifts from one character to the next, the reader is constantly kept guessing about who knows what, and, more important, who is telling the truth. A brutal game of delusion, temptation, and manipulation plays out, pointing toward a violent end. But a quiet one, down in the underwater world beneath the waves.

Belize Survivor Nancy R. Koerner 2007 In the early seventies, the anti-establishment counterculture evolved into a new movement of health and agricultural purists. Rebellious against the politics and pollution of the U.S., these young people sought to create their own natural paradise outside its borders. This is the story of one such expatriated American, a starry-eyed wild child who searches for a fantasy lifestyle and gets more than she bargains for. The storyline, a colorful tapestry of romantic adventure set in the jungles of Belize, Central America, is flavored with vivid imagery, picturesque characters, wild animals, and Mayan archaeological intrigue. But it is also a compelling story of a maturing young woman and her battle with the darker side of human nature, of innocence lost, deception, infidelity, and heartbreaking exile. Full of poignant moral dilemma, it is a story of one woman's survival, of exceptional courage, strength in overcoming adversity, spiritual growth, and eventual triumph.

Making Global Value Chains Work for Development Daria

Taglioni 2016-06-10 Economic, technological, and political shifts as well as changing business strategies have driven firms to unbundle production processes and disperse them across countries. Thanks to these changes, developing countries can now increase their participation in global value chains (GVCs) and thus become more competitive in agriculture, manufacturing and services. This is a paradigm shift from the 20th century when countries had to build the entire supply chain domestically to become competitive internationally. For policymakers, the focus is on boosting domestic value added and improving access to resources and technology while advancing development goals. However, participating in global value chains does not automatically improve living standards and social conditions in a country. This requires not only improving the quality and quantity of production factors and redressing market failures, but also engineering equitable distributions of opportunities and outcomes - including employment, wages, work conditions, economic rights, gender equality, economic security, and protecting the environment. The internationalization of production processes helps with very few of these development challenges. Following this perspective, Making Global Value Chains Work for Development offers a strategic framework, analytical tools, and policy options to address this challenge. The book conceptualizes GVCs and makes it easier for policymakers and practitioners to discuss them and their implications for development. It shows why GVCs require fresh thinking; it serves as a repository of analytical tools; and it proposes a strategic framework to guide policymakers in identifying the key objectives of GVC participation and in selecting suitable economic strategies to achieve them.

Feeling and Ugly Mupotsa, Danai 2018-08-28 DANAI MUPOTSA was born in Harare, and has lived in Botswana, the United States and South Africa where she is now based. She describes herself as a teacher and writer. *Feeling and Ugly* was largely written between 2016 and 2018, although some of the poems were written earlier or previously published in some form. The collection gathers the various statuses and locations she moves across, as daughter, mother, teacher, scholar and writer. From these places, many of the poems try to approach difficult feelings about what it means to "do politics" from an empathetic complexity. "I'm raging, sometimes that makes me petty" is one such example. The collection carries a set of standpoints, or willfulness about pedagogy, politics and optimism. And while she carries an attachment to a non-reparative, or negative affect across the collection, she closes in describing the work, or all of her work, as love poems. This collection is a long love letter to those who are wilful.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
