now.All I can think is: Oh, hell.

My grandmother is going to kill me.This might just send her to an early grave, so there's only one option-pretending the father is my new husband.If only he'd agree to fake it.Kai Connors was supposed to be nothing more than a one-night stand. A long, dirty, one-night stand fueled by one too

many tequila shots, where the only promise was to never speak of it again. But if my unfairly sexy next-door neighbor gets his way, this fake marriage could turn out to be very, very real... The Girl Next Door paperback includes the prequel short story, The One-Night Stand Next Door.

High Risk Ben Timberlake 2021-12-01 This is a dark, raw and uncompromising tale of the human condition in extremis, drawing on the many lives of Ben Timberlake: as an archaeologist, Special Forces soldier, combat medic and drug addict. Starting with Ben's first near-death experience--in a Nazi-themed bar in wartime Yugoslavia--High Risk is a whirlwind tour of everything from service in the SAS, combat in Iraq, and encounters with a gambling-obsessed 9/11 hijacker, to veterans blissed out on MDMA, hook-ups in the world of extreme sex, and battling a

heroin habit on a remote Scottish island. Ben pursued the rush, and the chase often took him over the edge. Instead of asking why, he asked, why not? Blending confessional narrative, classic reportage and acerbic humour, this memoir takes a gonzo look at terrorists, junkies, soldiers and strippers, through the tale of one extraordinary life.

Torn Trousers: A True Story of Courage and Adventure: How A Couple Sacrificed Everything To Escape to Paradise Andrew St Pierre White 2015-02-20 What could possibly go wrong in paradise? Tired of mortgage payments, thirty-something Andrew and Gwynn sold nearly everything they owned but their Siamese cat and escaped their humdrum nine-to-five existence for life in paradise—a tiny island in one of the remotest spots on Earth: the Okavango Delta in Botswana. Woefully inexperienced, they took control of a luxury game lodge that

catered to the likes of French aristocrats, Hollywood directors, Mafia lawyers, and the captain of the England cricket team. Not forgetting the hippos who liked to crash cocktail hour. Trouble soon followed as the reality of running a hotel on an island accessible only by boat or plane burst upon them. Andrew and Gwynn learned it's one thing for guests to wake up with gentle giraffes outside their windows, but it's quite another to keep them safe from poisonous snakes, temperamental elephants, and a hyena with a taste for plastic. All that was child's play compared to figuring out how to feed their guests when a 'quick run' to the grocery store required a plane, a bush pilot, and moderate risk to life, limb, and property. By turns funny, touching, and suspenseful, *Torn Trousers* is a real modern fairytale about getting exactly what you wished for...and then having to live with it. Feeling and Ugly Mupotsa, Danai

2018-08-28 DANAI MUPOTSA

was born in Harare, and has lived in Botswana, the United States and South Africa where she is now based. She describes herself as a teacher and writer. *Feeling and Ugly* was largely written between 2016 and 2018, although

some of the poems were written earlier or previously published in some form. The collection gathers the various statuses and locations she moves across, as daughter, mother, teacher, scholar and writer. From these places, many of the poems try to approach difficult feelings about what it means to “do politics” from an empathetic complexity. “I’m raging, sometimes that makes me petty” is one such example. The collection carries a set of standpoints, or willfulness about pedagogy, politics and optimism. And while she carries an attachment to a non-reparative, or negative affect across the collection, she closes in describing the work, or all of her work, as love poems. This collection is a long love letter to those who are wilful.

Decompression Juli Zeh 2015 A psychological thriller in the tradition of Patricia Highsmith about two couples caught in a web of conflicting passions while deep-sea diving off the beautiful Canary Islands In the late 1990s, Sven Fiedler and his girlfriend, Antje, left Germany for the island of Lanzarote, rejecting what Sven considered a vulgar culture of materialism and judgment. The young couple set up a diving service catering to tourists eager to bask in the warm sunshine and explore the silent, gleaming marine paradise that makes this otherwise barren volcanic island such a remarkable retreat. Sven's approach was simple: take the mechanics of diving seriously, instruct his

clients clearly, and stay out of their personal business as best he can. And life on the island goes smoothly until two German tourists--Jola von der Pahlen, a daytime soap star on the verge of cinematic success, and Theo Hast, a stalled novelist--engage Sven for a high-priced, intensive two-week diving experience. Staying in a guest house on Sven and Antje's property, the two visitors and their hosts quickly become embroiled in a tangle of jealousy and suspicion. Sven is struck by Jola's beauty, her evident wealth, and her apparently volatile relationship with the much older Theo. Theo quickly leaps to the conclusion that Sven and Jola are having an affair, but, oddly, he seems to facilitate it rather than trying to intervene. Antje, looking on, grows increasingly wary of these particular clients. As the point of view shifts from one character to the next, the reader is constantly kept guessing about who knows what, and,

more important, who is telling the truth. A brutal game of delusion, temptation, and manipulation plays out, pointing toward a violent end. But a quiet one, down in the underwater world beneath the waves.

against the politics and pollution of the U.S., these young people sought to create their own natural paradise outside its borders. This is the story of one such expatriated American, a starry-eyed wild child who searches for a fantasy lifestyle and gets more than she bargains for. The storyline, a colorful tapestry of romantic adventure set in the jungles of Belize, Central America, is flavored with vivid imagery, picturesque characters, wild animals, and Mayan archaeological intrigue. Second Suns David Oliver Relin
2013-06-18 From the co-author of *Three Cups of Tea* comes the inspiring story of two very different doctors—one from the United States, the other from Nepal—united in a common mission: to rid the world of preventable blindness. In this transporting book, David Oliver Relin shines a light on the work of Geoffrey Tabin and Sanduk Ruit, gifted ophthalmologists who have dedicated their lives to restoring sight to some of the world's most isolated, impoverished people through the Himalayan Cataract Project, an organization they founded in 1995. Tabin was the high-achieving bad boy of Harvard Medical School, an accomplished

mountain climber and adrenaline junkie as brilliant as he was unconventional. Ruit grew up in a remote Nepalese village, where he became intimately acquainted with the human costs of inadequate access to health care. Together they found their life's calling: tending to the afflicted people of the Himalayas, a vast mountainous region with an alarmingly high incidence of cataract blindness. *Second Suns* takes us from improvised plywood operating tables in villages without electricity or plumbing to state-of-the-art surgical centers at major American universities where these two driven men are restoring sight—and hope—to patients from around the world. With their revolutionary, inexpensive style of surgery, Tabin and Ruit have been able to cure tens of thousands—all for about twenty dollars per operation. David Oliver Relin brings the doctors' work to vivid

life through poignant portraits of patients helped by the surgery, from old men who cannot walk treacherous mountain trails unaided to cataract-stricken children who have not seen their mothers' faces for years. With the dexterity of a master storyteller, Relin shows the profound emotional and practical impact that these operations have had on patients' lives. *Second Suns* is the moving, unforgettable story of how two men with a shared dream are changing the world, one pair of eyes at a time. Praise for *Second Suns* "As miracles go, it's hard to beat making the blind see. Yet that's exactly what the eye surgeon Dr. Geoffrey Tabin can do. He services poor people in the developing world who have developed cataracts—a clouding of the lens of the eye that is the world's leading cause of blindness. . . . *Second Suns* is a hopeful work, a profile of two doctors who have dedicated their lives to bringing light to those in

darkness."—*Time* "A compelling and inspiring book . . . *Second Suns* portrays heroic health care delivered under harrowing conditions: Ruit and his teams carry their equipment on multi-day treks up steep mountain trails, sometimes hiking at night with flashlights or head lamps, to reach settlements where they typically spend several days operating on hundreds of villagers in makeshift surgical theaters."—*The Washington Post* "Second Suns should be required reading for anybody with an interest in humanitarian philanthropy—or, for that matter, a desire to feel a little better about the world."—*Outside* "A detailed, heartfelt account of the work of [two] dedicated pioneers."—*Kirkus Reviews* From the Hardcover edition. **Crimes Committed by Terrorist Groups** Mark S. Shakespeare, Objects and Phenomenology Susan Sachon
2019-12-24 This book explores ways in which Shakespeare's

writing strategies shape our embodied perception of objects – both real and imaginary – in four of his plays. Taking the reader on a series of perceptual journeys, it engages in an exciting dialogue between the disciplines of phenomenology, cognitive studies, historicist research and modern acting techniques, in order to probe our sentient and intuitive responses to Shakespeare's language. What happens when we encounter objects on page and stage; and how we can imagine that impact in performance? What influences might have shaped the language that created them; and what do they reveal about our response to what we see and hear? By placing objects under the phenomenological lens, and scrutinising them as vital conduits between lived experience and language, this book illuminates Shakespeare's writing as a rich source for investigation into the way we

think, feel and communicate as embodied beings.

Car Guys vs. Bean Counters Bob Lutz 2011-06-09 A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making

great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determined to eliminate the "waste" and "personality worship" of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product

excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.

Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist

groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Making Global Value Chains

Work for Development Daria

Tagliani 2016-06-10 Economic, technological, and political shifts

as well as changing business strategies have driven firms to unbundle production processes and disperse them across countries. Thanks to these changes, developing countries can now increase their participation in global value chains (GVCs) and thus become more competitive in agriculture, manufacturing and services. This is a paradigm shift from the 20th century when countries had to build the entire supply chain domestically to become competitive internationally. For policymakers, the focus is on boosting domestic value added and improving access to resources and technology while advancing development goals. However, participating in global value chains does not automatically improve living standards and social conditions in a country. This requires not only improving the quality and quantity of production factors and redressing market failures, but also

engineering equitable distributions of opportunities and outcomes - including employment, wages, work conditions, economic rights, gender equality, economic security, and protecting the environment. The internationalization of production processes helps with very few of these development challenges. Following this perspective, *Making Global Value Chains Work for Development* offers a strategic framework, analytical tools, and policy options to address this challenge. The book conceptualizes GVCs and makes it easier for policymakers and practitioners to discuss them and their implications for development. It shows why GVCs require fresh thinking; it serves as a repository of analytical tools; and it proposes a strategic framework to guide policymakers in identifying the key objectives of GVC participation and in selecting

suitable economic strategies to achieve them.
