Of Poverty and Plastic Kaveri Gill 2009-10-28 Of Poverty and Plastic applies an interdisciplinary, ‘field economics’ approach to poverty analysis, using a mix of survey and ethnographic data to challenge received notions of the nature and extent of narrow income poverty and multiple deprivations experienced by those working in the informal waste recovery and plastic recycling economy of Delhi. A detailed analysis of specialization, capital, and value in various segments of this labour-intensive, ‘green’ informal market is undertaken, with explicit recognition of its wider social and political institutional context, and how it is shaped by unequal interactions with civil society and the state. In particular, the book focuses on the identity and agency of subordinate scheduled caste groups—living literally and metaphorically on the edge of the city—in negotiating ‘a decent life’ in today’s neoliberal environment. The case studies of the ban on recycled polythene bags and the industrial relocation order illustrate the channels through which these actors collectively seek to resist the perceived anti-urban poor status quo, driven by powerful middle class coalitions through legislation or judicial fiat, with varying degrees of success. In doing so, the book exposes the complex, and at times contrary, policy reality binding poverty and deprivation, formal and informal markets, the state and citizenship in contemporary urban India.

Plastic bags are cheap and easy to use. But what happens when a bag breaks or is no longer needed? In Njau, Gambia, people simply dropped the bags and went on their way. One plastic bag became two. Then ten. Then a hundred. The bags accumulated in ugly heaps alongside roads. Water pooled in them, bringing mosquitoes and disease. Some bags were burned, leaving behind a terrible smell. Some were buried, but they strangled gardens. They killed livestock that tried to eat them. Something had to change. Isatou Ceesay was that change. She found a way to recycle the bags and transform her community. This inspirational true story shows how one person's actions really can make a difference in our world.

The Glass Castle Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description. *99 Cent Solutions* Editors at Reader's Digest 2015-06-02 Save a fortune with over 1,300 easy solutions to hundreds of common household problems.
